

CDP Rating 2021: MM Group achieves Leadership Status for the first time

The non-profit organization CDP (Carbon Disclosure Project) has awarded the MM Group with a score of A- for its climate change measures and with a B score for its commitment to protecting forests. With the rating of A- for climate change, the MM Group receives in 2021 the Leadership Status for the first time and thus ranks among the leading 11% of participating companies. The Leadership status confirms a comprehensive disclosure of environmental data, thorough awareness of risks and demonstration of strong management of those risks, as well as the implementation of market-leading best practices. This good result underlines the anchoring of sustainability in the corporate strategy of the MM Group and encourages us in the pursuit of true environmental stewardship.
